RISK MANAGEMENT PROCESSES

BSBRK401 – IDENTIFY RISK AND APPLY RISK MANAGEMENT PROCESSES

DURATION 1 day training course

COURSE OUTLINE

This training program provides practical guidance for persons who have duties under the 2011 QLD WHS Act and Regulations to manage risks to health and safety in the workplace. The training is focused on performance outcomes, skills and knowledge required to identify risks and apply established risk management processes to a subset of an organisation or projects operation that are within the persons own work responsibilities and area of operation.

Key learning outcomes of the risk management processes are:

- Identifying risk within your workplace
- Analyse and evaluate risk
- Treat risks
- Monitor and review effectiveness of risk treatments

Face to face classroom delivery will be used to facilitate the underpinning knowledge requirements.

ASSESSMENT

Both theory and practical assessments will be conducted throughout the course in most cases.

On successful completion participants will receive a statement of attainment for BSBRK401 Identify risk and apply risk management processes.

BENEFITS

- Contributes to a PCBU's due diligence profile
- Clear understanding of current legislation and its framework for hazard identification, risk assessment and risk management in the workplace

WHO SHOULD ATTEND?

This training program is designed for persons with management or control over a workplace, or persons that have a capacity to exercise control of other workers or contractors in the workplace such as tradespersons or contractor coordinator's.

LEGISLATION/COMPLIANCE

This training program has been written to provide participants with the knowledge and skills to comply with their due diligence obligations under the Queensland Work Health and Safety Act 2011.
